Smart House A35dV is a year-round house, designed in modular technology, on a single steel frame, with a gable roof. The functionally arranged space allowed to separate a living room with a kitchenette, a bathroom and a bedroom with a large bed. An additional zone has been created as a **mezzanine** with a place that provides comfortable accommodation for two people. The day zone with large glazing allows you to enjoy the views outside the window. The main advantage is the building area - up to 35m².

This is a house designed for those who appreciate a cozy compact space.

room	area m ²
living room + kitchen	12.12 m ²
cabinet	3.16 m ²
bathroom	2.90 m ²
bedroom	8.10 m ²
